

Product Datasheet

Product code: **5TTHX.SA.GP.0**

Product type: Gold plated tweezers

Made in: Switzerland

Description: Type 5TTHX reverse action tweezers are suitable to applications which require holding a flat component firmly. Reverse action helps to hold the component firmly in a resting position. The particular shape of its tips prevents capillary effect, avoiding the possible upwards flow of liquid along the tweezer tips. The coating of 2-microns thickness, made of pure 24-carat gold plating, provides excellent scratch resistance and makes them particularly suitable for handling nickel grids in immuno-gold work. The tweezers exhibit remarkable durability under high-volume autoclaving conditions, and the gold plating enhances their resistance to chemical corrosion, oxidation, and electrical conductivity.

Tip description: bent, very fine, sharp, superior finish

Coating/finishing: Gold plated (GP)

Body material: Anti-Magnetic Anti-Acid Stainless Steel (SA)

Picture:

Tweezer dimensions:

OAL	105.0 mm – 4.134 inch
Width	9.5 mm – 0.374 inch
Height	12.0 mm – 0.472 inch

Tip details:

Tip dimensions:

Tip width	0.17 mm – 0.007 inch
Tip thickness	0.14 -0.09 mm – 0.006-0.004 inch
