

Product Datasheet

Product code: **7.SA.GP.0**

Product type: Gold plated tweezers

Made in: Switzerland

Description: Type 7 high precision tweezers are suitable to delicate applications which require holding a small component firmly while granting maximum visibility. The curved geometry provides maximum visibility and increased ergonomics. The coating of 2-microns thickness, made of pure 24-carat gold plating, provides excellent scratch resistance and makes them particularly suitable for handling nickel grids in immuno-gold work. The tweezers exhibit remarkable durability under high-volume autoclaving conditions, and the gold plating enhances their resistance to chemical corrosion, oxidation, and electrical conductivity.

Tip description: curved, very fine, sharp, superior finish

Coating/finishing: Gold plated (GP)

Body material: Anti-Magnetic Anti-Acid Stainless Steel (SA)

Picture:

Tweezer dimensions:

OAL	120.0 mm – 4.724 inch
Width	12.5 mm – 0.492 inch
Height	12.0 mm – 0.472 inch

Tip dimensions:

Tip width	0.16 mm – 0.006 inch
Tip thickness	0.09 mm – 0.004 inch
