

## Product Datasheet

**Product code:** **ES248TX.CR.BGO**

**Product type:** Tungsten Carbide Cutters

**Made in:** Italy

**Description:** The 248ATX is a high precision cutter belonging to the small Tungsten Carbide cutters family. The angled tapered geometry provides excellent ergonomics combined with good resistance, while the 248ATX tips dimensions offer the best advantage to access small areas. The short blade length transmits the operator's full cutting force. The flush cutting edge is suitable to perform clean cuts on the hardest wires. The 248ATX is equipped with an ESD Ergo-tek slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The Tungsten Carbide insert blades are 82HRC hardness.

**Head description:** Small, Tapered
